

**(GB) Instructions**

Vivanco UR 89 remote control for almost all TV, audio, video and other infrared-controllable equipment

**Inserting the batteries**

Open the battery flap on the back of the remote control, press the tongue lightly upwards, then insert 2 alkaline AAA batteries. Check that the polarity markings on the batteries and in the battery compartment are correctly lined up (+=+), then close the flap carefully. – Always use undamaged batteries.

**Adapting to appliances**

In order to control your appliances you must adapt or set the remote control to them. There are two ways of doing so: direct control code entry or code search.

If your UR 89 does not understand you it blinks twice several times and you can then repeat the entry. Each understood entry is confirmed by an appliance button blinking once briefly.

**Direct control code entry using the enclosed list**

Example: setting to control a Panasonic television set:

1. The enclosed list gives, for example, the Panasonic Code **154**.

Please make sure you have selected the correct list for television sets (TV).

2. To prepare code entry, press the **SET** button, bottom right, keep it pressed and then press the required appliance button, e.g. **TV**, additionally until the lamp (LED) lights constantly.

3. Then press the number buttons (e.g. 1 5 4) in sequence.

4. Once the numbers have been entered the button lamp goes out and the remote control is ready to control your appliance.

5. Finally, test the control code setting by trying to control (in this example) your television set. If it does not work at all or not correctly try a different code from the list or the code search (see below).

6. To set the remote control for other appliances, proceed in the same way. Instead of the **TV** appliance button, press another button (e.g. **VCR**, **CBL/SAT(DVB, DECODER)**, **DVD**, **TUNER**, **TAPE**, **CD**, **AMP**).

**Code search**

If the brand of your appliance is not in the list or none of the codes given fits, we recommend a code search.

**Manual code search**

1. Switch on the appliance to be controlled. Program is running.

2. To prepare code search, press the **SET** button, bottom right, keep it pressed and then press the required appliance button, e.g. **TV**, additionally until the lamp (LED) lights constantly.

3. Then point the remote control at the appliance to be controlled.

4. Briefly press the **ON/OFF**  (appliance on/off) button once. The lamp (LED) blinks. – Except when searching for a TV code you can also briefly press the yellow > (**Play**) button and use the **Play** function to search. Make sure that a tape, a DVD or a CD is inserted in the tape deck, player or recorder.

5. Press the **ON/OFF**  (appliance on/off) or **Play** button repeatedly, approx. every second, until the appliance, e.g. your DVD player, reacts. - If you notice the reaction of your appliance too late and the next code has already been emitted you can go back by pressing **SET** and then **ON/OFF** or **Play** again. If your appliance has switched itself off you must switch it back on again, e.g. on the appliance or with the original remote control, to continue searching. - When your appliance reacts you can also try out other buttons without interrupting the search. If some buttons do not work properly, simply continue searching with **ON/OFF** or **Play**.

6. When your appliance reacts correctly, press the appliance button, e.g. **TV**, and end the search. The lamp (LED) goes out.

- The UR 89 continues with the search at the point where you interrupted it. When the end of the code list is reached the search stops automatically. The remote control blinks quickly several times. The code last entered remains stored. The search stops after approx. 30 seconds of inactivity.

**Automatic code search \***

Your remote control finds the correct settings almost automatically in seconds:

1. Switch on the appliance to be controlled. A channel number, for example, appears in the display of your satellite receiver.

2. To start the code search, press the **SET** button, bottom right, and then additionally the required appliance button, e.g. **TV**, for more than 3 seconds until the lamp (LED) starts to blink.

3. Then point the remote control at the appliance to be controlled while the remote control emits a different **ON/OFF** signal every 2 seconds.

4. When your appliance reacts, press any button, except **SET**, to end the search. – If you ended the search too late, continue to search using the **Manual Code Search** (see above).

5. Finally, test the control code setting by trying to control, for example, your DVD appliance. If it does not work correctly, please try the code search again. The code search then begins with the next code in the sequence. - Remember to switch your appliance, e.g. **DVD**, back on again if you wish to continue searching.

**Code identification**

You can read off the 3-digit codes you have set at any time:

1. Press the appliance button of the appliance whose code you want to read off, e.g. **TV**.
2. Press the **SET** button and **1,2,3**, depending on the part of the code you want to read off. For example, if you press **SET+1** after **TV** and the code **154** (in this example) has been set, the lamp blinks once after **SET+1** is released to show that the hundred figure is 1. All you have to do is count. The ten figure is indicated after **SET+2** is released, e.g. it blinks 5 times for the 5 in 154. The one figure is indicated after **SET+3** is released, e.g. it blinks 4 times for the 4 in 154. - We recommend that you note the found codes, for example, on a label attached to the back of the remote control.

**Operation**

You operate your appliances basically in exactly the same way as if you were using the original remote controls, except that you must first press an appliance button (**TV**, **DVD**, etc.) to control the required appliance. As the symbols on the UR 89 could differ from those on the original remote controls you may have to try out all the buttons in order to find the functions.

**Special settings and functions**

1. **Volume Punch-Through function:** To simplify operation, the volume buttons (**VOL+** or **VOL-**) and the Mute  button always control the last appliance used for volume control if the appliance currently selected does not have volume control in its control code. Example: you are controlling **TV** at first, then you change to **DVD**, which has no volume control. The remote control then automatically controls the TV volume without you having to switch over to **TV** in between.

2. **Assigning volume and mute exclusively to one appliance:** Press the appliance button of the appliance that you always want to use for volume control, e.g. **AMP** if that is where you have set your AV receiver. To lock, press **SET** and **5**. To unlock, press **SET** and **6**.

**Specifications**

Batteries: 2x AAA batteries, R03, UM4  
Range: max. 7 m  
Not for 400 kHz equipment

**2-year works guarantee**

Should your UR 89 cease to work within 2 years of purchasing you will receive a free replacement from Vivanco. Exceptions: missing codes, deliberate destruction and normal wear and tear of the housing and buttons.

**(D) Bedienungsanleitung**

Fernbedienung Vivanco UR 89 für fast alle Fernseh-, Audio-, Video und anderen infrarotsteuerbaren Geräte

**Batterien einlegen**

Bitte öffnen Sie die Batterieklappe an der Gerätelücke, Lasche leicht nach oben drücken, und legen Sie 2 Alkali-Mikrozellenbatterien ein. Achten Sie auf die angegebenen Polaritäten auf Batterien und im Batteriefach (+=+), und schließen Sie das Fach wieder vorsichtig. – Bitte achten Sie darauf, immer einwandfreie Batterien zu verwenden.

**Geräteanpassung**

Um Ihre Geräte steuern zu können, müssen Sie die Fernbedienung für Ihre Geräte einstellen. Dazu gibt es zwei Möglichkeiten: die direkte Steuertodeeingabe und die Kodesuche.

*Wenn die UR 89 Sie nicht versteht, dann blinkt sie 2 Mal und Sie können danach die Eingabe wiederholen. Jede verstandene Eingabe quittiert sie mit einem kurzen Blink ihrer LED-Anzeigelampe.*

**Die direkte Steuertodeeingabe mithilfe der beigefügten Liste**

Beispiel: Einstellung der Fernbedienung für ein Panasonic-Fernsehgerät:

1. Aus der beigefügten Liste entnehmen Sie z.B. den Panasonic-Code **154**. Bitte vergewissern Sie sich, dass Sie die korrekte Liste für Fernseher (TV) gewählt haben.
2. Zur Vorbereitung der Kodeeingabe drücken Sie die Tasten **SET** (Einstellung), unten rechts, und dann dazu die gewünschte Gerätetaste, z.B. **TV**, bis das Lämpchen (LED) dauernd leuchtet.
3. Dann drücken Sie nacheinander die Zifferntasten (z.B. 1 5 4).
4. Nach der Zifferneingabe erlischt die Lampe und die Fernbedienung ist bereit zum Steuern Ihres Gerätes.
5. Zum Abschluss testen Sie den eingestellten Steuertode, indem Sie versuchen in diesem Fall Ihr TV-Gerät zu steuern. Funktioniert es nicht oder nicht richtig, dann versuchen Sie bitte einen weiteren Kode aus der Liste oder die Kodesuche, s.u..
6. Die Einstellung der Fernbedienung zur Steuerung weiterer Geräte nehmen Sie auf gleiche Weise vor. Anstelle der Gerätetaste **TV** drücken Sie andere Tasten, z.B. **VCR**, **CBL/SAT(DVB,DECODER)**, **DVD**, **TUNER**, **TAPE**, **CD**, **AMP**.

**Die Kodesuche**

Wenn die Marke eines Gerätes nicht in der Liste steht oder kein angegebener Kode passt, empfiehlt sich die Kodesuche.

**Manuelle Kodesuche**

1. Bitte das zusteuernde Gerät einschalten. Programm läuft.
2. Zur Vorbereitung der Kodesuche drücken Sie die Tasten **SET** (Einstellung), unten rechts, und dann dazu die gewünschte Gerätetaste, z.B. **TV**, bis das Lämpchen (LED) dauernd leuchtet.
3. Dann Fernbedienung auf das zu steuernde Gerät richten.
4. Einmal kurz **EIN/AUS**  (Gerät ein/aus) Taste drücken. Das Lämpchen (LED) blinkt. – *Außer bei der Suche nach TV-Kodes können Sie auch die gelbe Taste > (Play) kurz drücken und die Play/Wiedergabefunktion zum Suchen verwenden. Stellen Sie sicher, dass in Bandgeräten, Playern und Rekordern dann ein Band bzw. eine DVD oder CD eingelegt ist.*

5. Wiederholt, ca. jede Sekunde, **EIN/AUS**

 (Gerät ein/aus) **oder Play** (Wiedergabe) Taste drücken bis Gerät, z.B. Ihr DVD-Player, reagiert. - *Wenn Sie die Reaktion Ihres Gerätes zu spät bemerkt haben und schon der nächste Kode gesendet wurde, dann macht das nichts: Sie können die Suchrichtung umkehren, indem Sie SET und dann wieder EIN/AUS oder Play drücken. Hatte sich Ihr Gerät ausgeschaltet, so müssen Sie es, z.B. am Gerät oder mit der Originalfernbedienung zur weiteren Suche wieder einschalten. - Wenn Ihr Gerät reagiert können Sie auch andere Tasten probieren, ohne die Suche zu verlassen. Wenn einige Tasten nicht richtig funktionieren, suchen Sie einfach weiter mit EIN/AUS oder Play.*

6. Wenn Ihr Gerät richtig reagiert, drücken Sie die Gerätetaste, z.B. **TV**, und beenden die Suche. Das Lämpchen (LED) geht aus.

*Die UR 89 setzt die Suche dort fort, wo Sie die Suche abgebrochen hatten. Wenn das Ende der Kodeliste erreicht ist, endet die Suche automatisch. Dabei blinkt die Fernbedienung mehrfach schnell hintereinander. Der zuletzt eingegebene Kode bleibt gespeichert. Die Suche wird nach ca. 30 Sekunden Untätigkeit abgebrochen.*

**Automatische Kodesuche**

In wenigen Sekunden findet Ihre Fernbedienung fast automatisch die richtigen Steuereinstellungen:

1. Bitte das zusteuernde Gerät einschalten. Z.B. erscheint eine Programmnummer in der Anzeige Ihres Satempfängers.
2. Zum Start der Kodesuche drücken Sie die Tasten **SET** (Einstellung), unten rechts, und dann dazu die gewünschte Gerätetaste, z.B. **TV**, mehr als 3 Sekunden lang bis das Lämpchen (LED) blinkt.
3. Dann Fernbedienung auf das zu steuernde Gerät richten, während die

Fernbedienung alle 2 Sekunden ein anderes **EIN/AUS** Signal sendet.

4. Wenn Ihr Gerät reagiert, drücken Sie irgendeine Taste, außer **SET**, um die Kodesuche zu beenden. – *Wenn Sie die Suche zu spät beendet haben, dann suchen Sie bitte weiter mit der Manuellen Kodesuche s.o..*

5. Zum Abschluss testen Sie den eingestellten Steuerkode, indem Sie versuchen z.B. Ihr DVD-Gerät zu steuern. Funktioniert es nicht richtig, dann versuchen Sie bitte die Kodesuche noch einmal. Die Codesuche startet dann mit dem nächstfolgenden Code. - *Vergessen Sie nicht Ihr Gerät z.B. DVD, wenn Sie weiter suchen lassen wollen, wieder am Gerät einzuschalten.*

**Kodeindentifikation**

Sie können die eingestellten 3-stelligen Kodes jederzeit auslesen:

1. Gerätetaste des Gerätes drücken, dessen Kode Sie auslesen möchten. Z.B. **TV**.
2. **SET** (Einstellen) drücken und dazu **1,2,3** drücken, je nachdem welche Stelle des Kodes Sie auslesen möchten. Z.B. wenn Sie nach **TV** **SET+1** gedrückt haben und der Bespielkode **154** eingestellt ist, blinkt das Lämpchen, nach dem loslassen von **SET+1**, **1\*** um die Hunderterstelle mit 1 anzulegen. Sie brauchen also nur zu zählen. Mit **SET+2** wird nach dem Loslassen die 10er Stelle ausgegeben, z.B. blinkt es **5\*** für die 5 von **154**. Und Mit **SET+3** wird nach dem Loslassen die 1er Stelle ausgegeben, z.B. blinkt es **4\*** für die 4 von **154**. - *Zur Erinnerung empfiehlt es sich gefundenen Kodes, z.B. auf einem Klebeschild an der Fernbedienungsrückseite zu notieren.*

**Bedienung**

Sie bedienen Ihre Geräte praktisch genauso, wie Sie es von Ihren Originalfernbedienungen her kennen, nur, dass Sie zuvor eine Gerätetaste **TV**, **DVD** usw. drücken müssen, um das gewünschte Gerät steuern zu können. Da die Symbole der UR 89 sich von denen Ihrer Originalfernbedienungen unterscheiden können, müssen Sie u.U. alle Tasten zum Finden von Funktionen ausprobieren.

**Spezielle Einstellungen und Funktionen****1. Lautstärke-Punch-Through-Funktion:**

Zur Vereinfachung der Bedienung steuern die Lautstärketasten (**VOL+** oder **VOL-**) und die Stummschalttaste  (Stumm) immer das zuletzt zur Tonsteuerung genutzte Gerät, wenn das aktuell ausgewählte Gerät keine Tonsteuerung im Steuerkode vorgesehen hat. Beispiel: Sie steuern zunächst **TV** und wechseln dann zu **DVD**, der keine Tonsteuerung hat, dann steuert die Fernbedienung automatisch den Fernsehgeräeton, ohne dass Sie zwischendurch auf **TV** umschalten müssen.

**2. Lautstärke und Stummschaltung exklusiv einem Gerät zuordnen:** Drücken Sie die Gerätetaste des Gerätes, dass Sie immer zur Tonsteuerung nutzen wollen. Z.B. **AMP** wenn Sie dort Ihren AV-Empfänger eingestellt haben. Zur Verriegelung drücken Sie dann **SET** und dann dazu die **5**. Zur Entriegelung drücken Sie **SET** und dann dazu die **6**.

#### Technische Daten

Batterien: 2x Mikrozellen, R03, UM4, AAA  
Reichweite: max. 7 m  
Nicht für 400 kHz Geräte

#### 2 Jahre Werksgarantie

Fällt Ihre UR 89 innerhalb von 2 Jahren nach dem Kauf aus, dann bekommen Sie von Vivanco kostenlos Ersatz. Ausnahmen: fehlende Kodes, vorsätzliche Zerstörung und normale Abnutzung des Gehäuses und der Tasten.

#### (E) Instrucciones para el uso

Telemando Vivanco UR 89 para casi todos los televisores, aparatos de audio y vídeo y otros aparatos de telemando infrarrojo

#### Colocación de pilas

Abra el compartimiento de pilas situado en la parte trasera del telemando. Apriete suavemente hacia arriba la lengüeta y coloque 2 micropilas alcalinas. Preste atención a las polaridades indicadas en las pilas y el compartimiento de las mismas (+=+) y cierre cuidadosamente el compartimento. – Rogamos preste atención a que siempre son empleadas pilas impecables.

#### Adaptación del telemando

Para poder mandar sus aparatos, debe adaptar el telemando a los aparatos a mandar. A este efecto, hay dos posibilidades: la introducción directa del código de mando, la búsqueda de código.

*Si su UR 89 no le entiende, da 2 veces seguidas luz intermitente. Después puede repetir la introducción. Cada introducción entendida es confirmada mediante un brillo breve del indicador LED.*

#### Introducción directa del código de mando mediante la lista anejada

Ejemplo: Ajuste del telemando para un televisor Panasonic

1. En la lista anejada puede localizar p.ej. el código **154** para Panasonic.

*Asegúrese de que haya elegido la lista correcta para televisores (TV).*

2. Para preparar la introducción del código, presione brevemente la tecla **SET** (tecla de ajuste) situada abajo a la derecha, y la tecla de aparato requerida, p.ej. **TV** hasta que el LED esté permanentemente iluminado.

3. Entonces, debe presionar una tras otra las teclas de número (p.ej. 1 5 4).

4. Después de haber sido introducidos los números, se apaga la lámpara y el telemando está listo para mandar su aparato.

5. Finalmente, debe ensayar el código de mando ajustado intentando a mandar p.ej. su televisor. Caso que no funcione o no funcione correctamente, debe elegir otro código de la lista o servirse de la búsqueda de código, v. pasos siguientes.

6. El ajuste del telemando para el mando de otros aparatos debe efectuarlo de la misma manera. Entonces, en vez de la tecla de aparato **TV** debe presionar otras teclas, p.ej. **VCR, CBL/SAT(DVB,DECODER), DVD, TUNER, TAPE, CD, AMP.**

#### La búsqueda de código

Si la marca de un aparato no está indicada en la lista o si no es correcto ninguno de los códigos indicados, recomendamos emplear la búsqueda de código.

#### Búsqueda de código manual

1 Activar el aparato a mandar. El programa está activo.

2 Para preparar la búsqueda de código, presione brevemente la tecla **SET** (ajuste), abajo a la derecha, y entonces la tecla de aparato requerida, p.ej. **TV** hasta que el LED esté permanentemente iluminado.

3 Entonces, dirija el telemando hacia el aparato a mandar.

4 Presione una vez brevemente la tecla

#### ACTIVAR/DESACTIVAR

(encender/apagar aparato). El LED da luz intermitente. – Excepto con ocasión de buscar códigos TV, también puede presionar brevemente la tecla amarilla > **(Play)** y emplear la función Play/Reproducción para buscar. Entonces, asegúrese de que los grabadores y reproductores dispongan del medio respectivo resp. una cinta, un DVD, un CD, etc..

5 Presione repetidamente, aprox. una vez por segundo, la tecla

#### ACTIVAR/DESACTIVAR

(encender/apagar el aparato) o la tecla **Play** (reproducción) hasta que reaccione, p.ej. su reproductor DVD, reagiert. – No importa, si usted haya notado demasiado tarde la reacción del aparato respectivo y ya ha sido enviado el próximo código: Puede invertir la dirección de búsqueda presionando **SET** y entonces nuevamente la tecla **ACTIVAR/DESACTIVAR** o **Play**. Caso que su aparato se hubiera apagado, debe activarlo nuevamente p.ej. en el aparato mismo o mediante el telemando original, para que inicie otra vez la búsqueda. – Si su aparato reacciona, también puede probar otras teclas sin tener que salir del proceso de búsqueda. Si algunas teclas no funcionen correctamente, siga buscando mediante las teclas **ACTIVAR/DESACTIVAR** o **Play**.

6 Si su aparato reaccione correctamente, presione la tecla de aparato, p.ej. **TV**, y termine así la búsqueda. Se apaga el LED. El UR 89 sigue la búsqueda allí, donde la había interrumpido. En cuanto el sistema

*haya alcanzado el fin de la lista de códigos, la búsqueda es terminada de manera automática. En esto, el telemando da luz intermitente rápida. El código únicamente introducido es guardado.- Después de unos 30 segundos de inactividad, la búsqueda es terminada.*

#### **Búsqueda de código automática**

Dentro de pocos segundos, su telemando localiza de manera casi automática los ajustes de mando correctos.

1. Debe activar el aparato a mandar. P.ej. aparece un número de programa en el indicador de su receptor de SAT.
2. Para emprender la búsqueda de código, presione la tecla **SET** (tecla de ajuste), abajo a la derecha, y la tecla de aparato requerida, p.ej. **TV**, durante más de 3 segundos hasta que el LED de luz intermitente.
3. Entonces, dirija el telemando hacia el aparato a mandar, mientras el telemando emite cada 2 segundos otra señal **ACTIVAR/DESACTIVAR**.
4. En cuanto su aparato reaccione, presione cualquier tecla excepto **SET** para terminar la búsqueda. *Caso que haya terminado demasiado tarde, siga mediante la Búsqueda de código manual.*

5. Finalmente, debe ensayar el código de mando ajustado intentando a mandar p.ej. su aparato DVD. Caso que no funcione de la manera correcta, debería reiniciar la búsqueda de código. Entonces, la búsqueda de código empieza con el código siguiente. *No olvide activar nuevamente su aparato, p.ej. el DVD, si desea seguir buscando.*

#### **Identificación de códigos**

Puede recontar en cualquier momento los códigos ajustados de 3 dígitos:

1. Presione la tecla de aquel aparato, cuyo código desea leer, p.ej. **TV**.
2. Presione la tecla **SET** (ajuste) y **1, 2, 3** - según la posición del dígito de código que desea leer. Si, p.ej., ha presionado **TV SET+1** y el código ejemplar es el **154**, después de haber soltado la tecla **SET+1** el LED del 1 da luz intermitente para indicar el dígito centeno del código. Pues simplemente debe contar. Soltando **SET+2**, es indicado el dígito deceno (p.ej. da luz intermitente el 5 de **154**), y soltando **SET+3** es indicada la cifra 4 de **154**. - *Para no olvidar los códigos, se recomienda los apunte p.ej. mediante un adhesivo fijado en la parte trasera del telemando.*

#### **Manejo**

El manejo de sus aparatos es prácticamente el mismo que el efectuado con los telemandos originales, aunque antes debe presionar una tecla de aparato **TV, DVD, etc.**, para poder mandar el aparato requerido. Como los símbolos indicados en su UR 89 pueden variar de los indicados en sus telemandos originales, dado el caso debe probar todas las

teclas para averiguar sus funciones especiales.

#### **Ajustes y funciones especiales**

1. **Función de volumen Punch-Through:** Para simplificar el manejo, las teclas de regulación de volumen (**VOL+** o **VOL-**) y la tecla de apagar el sonido **(MUTE)** siempre controlan el volumen del aparato usado últimamente, si el aparato actualmente elegido no dispone de regulación de volumen en el código de mando. Ejemplo: Primero controla **TV** para, después, mandar el **DVD** que no dispone de regulación de volumen. Entonces, el telemando manda automáticamente el volumen del televisor sin que fuese necesario cambiar a **TV**.

2. **Asignar volumen y sonido apagado a un aparato especial:** Presione la tecla de aparato de aquel aparato que desea emplear siempre para mandar el volumen; p.ej. **AMP**, si ha elegido su receptor de AV. Entonces, para bloquear el ajuste presione **SET** y el **5**, para desbloquearlo **SET** y el **6**.

#### **Datos técnicos:**

Pilas: 2x micropilas, R03, UM4, AAA

Alcance: máx. 7 m

No apropiado para aparatos de 400 kHz

#### **2 años de garantía de fábrica**

En el caso de que su UR 89 falle dentro de 2 años después de haberlo adquirido, Vivanco sustituye el aparato gratuitamente. Excepciones: códigos faltantes, destrucción intencionada y desgaste normal de la caja y las teclas.

#### **(I) Istruzioni per l'uso**

**Telecomando Vivanco UR 89 per quasi tutti i televisori ed altri apparecchi audio-video che possono essere comandati a infrarossi**

#### **Inserimento delle batterie**

Aprire il vano batterie sul dorso dell'apparecchio (esercitando una leggera pressione che permetterà l'apertura del coperchio). Inserire dunque 2 batterie ministilo alcaline. Prestare attenzione alla polarità indicata sulle batterie e nel vano batterie (+=+); poi richiudere il vano prestando attenzione. - Utilizzare esclusivamente batterie in ottimo stato.

#### **Programmazione del telecomando**

Prima di poter comandare un apparecchio, è necessario programmare il telecomando per l'apparecchio in questione. Ciò può avvenire in due modi: mediante inserimento diretto del codice di comando, nonché mediante la funzione di ricerca del codice.

*Se UR 89 non capisce un inserimento, lampeggia 2 volte e dà la possibilità di ripetere l'inserimento; valida invece ogni inserimento capito mediante un breve lampeggiamento del LED.*

**Inserimento diretto di un codice di comando preso dall'elenco fornito insieme al telecomando**

Esempio: regolazione del telecomando per un televisore Panasonic.

1. Dalla lista allegata, desumere ad es. il codice Panasonic **154**. -Assicurarsi di aver scelto la lista giusta, cioè quella dei televisori (TV).
2. Per preparare l'inserimento del codice premere brevemente i tasti **SET** (Impostazione), situati in basso a destra, e poi il tasto di apparecchio desiderato, ad es. **TV**, finché la spia (LED) resta accesa in permanenza.
3. Premere in seguito uno dopo l'altro i tasti numerici (ad es. 1 5 4).
4. Una volta inserite le cifre, il LED si spegne e il telecomando è pronto per il comando dell'apparecchio.
5. In seguito, provare il codice di comando regolato cercando di comandare, nel caso presente, il televisore. Se non succede nulla, o se non accade quanto dovrebbe accadere, tentare con un nuovo codice preso dall'elenco oppure servirsi della funzione di ricerca del codice (vedi sotto).
6. La regolazione del telecomando per il comando di altri apparecchi si eseguirà nella stessa maniera. Al posto del tasto di apparecchio **TV**, premere un altro tasto, ad es. **VCR, CBL/SAT(DVB,DECODER), DVD, TUNER, TAPE, CD, AMP**.

**Ricerca del codice**

Si raccomanda l'utilizzazione della funzione di ricerca del codice qualora l'elenco non comprendesse un apparecchio, o se il codice specificato non funziona.

**Ricerca manuale del codice**

1. Accendere l'apparecchio che si desidera comandare (l'apparecchio in questione sarà già regolato su un programma).
2. Per preparare la ricerca del codice premere brevemente i tasti **SET** (Impostazione), situati in basso a destra, e poi il tasto di apparecchio desiderato, ad es. **TV1**, finché la spia (LED) resta accesa in permanenza.
3. Poi puntare il telecomando verso l'apparecchio che si vuole comandare.
4. Premere una volta brevemente il tasto **ON/OFF** (apparecchio ON/OFF). La spia (LED) lampeggerà. - *Ad eccezione della ricerca di codici TV, è possibile premere brevemente anche il tasto giallo > (Play) ed utilizzare così la funzione Play/Lettura per eseguire una ricerca. Assicurarsi prima che negli apparecchi a nastro, nei lettori o nei recorder sia inserito un nastro oppure un DVD o un CD.*
5. Premere più o meno ogni secondo il tasto **ON/OFF** (apparecchio ON/OFF) o **Play** (Lettura) finché l'apparecchio (nell'esempio dato il lettore DVD) reagisce. -

*Non fa nulla se quando ci si accorge che l'apparecchio ha reagito, il codice successivo è già stato trasmesso: è possibile infatti invertire la direzione di ricerca premendo prima **SET** e poi, nuovamente, **ON/OFF** o **Play**. Se nel frattempo l'apparecchio si è spento, per proseguire la ricerca sarà necessario riaccenderlo, agendo per es. sull'apparecchio o sul telecomando originale. - Quando l'apparecchio reagisce, è possibile provare anche altri tasti, senza dover uscire dalla ricerca. Qualora qualche tasto non funzioni correttamente, basterà proseguire la ricerca agendo su **ON/OFF** o su **Play**.*

6. Quando l'apparecchio reagisce correttamente, premere il tasto di apparecchio, ad es. **TV1**, per terminare la ricerca. La spia (LED) si spegnerà.

*UR 89 continua la ricerca là dove era stata interrotta. La ricerca termina automaticamente con il raggiungimento della fine dell'elenco dei codici. Il telecomando lampeggia allora rapidamente più volte di seguito. Il codice inserito per ultimo resta memorizzato. La ricerca si interromperà dopo ca. 30 secondi di inattività.*

**Ricerca automatica del codice**

Il telecomando eseguirà nel giro di pochi secondi, quasi automaticamente, le impostazioni giuste:

1. Accendere l'apparecchio che si desidera comandare (nel caso di un ricevitore da satelliti, appare così, per es., un numero di programma sul display dell'apparecchio).
2. Per avviare la ricerca del codice premere brevemente i tasti **SET** (Impostazione), situati in basso a destra, e premere in seguito per più di 3 secondi il tasto di apparecchio desiderato, ad es. **TV**, finché la spia (LED) resta accesa in permanenza.
3. Poi puntare il telecomando verso l'apparecchio che si vuole comandare, mentre il telecomando invia ogni 2 secondi un altro segnale di **ON/OFF**.
4. Quando l'apparecchio reagisce, premere un qualsiasi altro tasto, eccetto **SET**, per terminare la ricerca del codice. - *Qualora la ricerca sia stata terminata troppo tardi, proseguire la ricerca manualmente (vedi sopra **Ricerca manuale del codice**).*
5. In seguito, provare il codice di comando regolato cercando di comandare ad es. l'apparecchio **DVD**. Se non funziona correttamente, riavviare la ricerca del codice. La ricerca partirà dal codice successivo. - *Non si dimentichi di riaccendere l'apparecchio (agendo sull'interruttore sull'apparecchio), per es. l'apparecchio **DVD**, se si desidera proseguire la ricerca.*

**Identificazione del codice**

E' possibile in qualsiasi momento sapere qual è il codice a tre cifre regolato:

1. Premere il tasto di apparecchio dell'apparecchio di cui si desidera conoscere il codice, ad es. **TV**.
2. Premere **SET** (Impostazione) e poi **1.2.3**, a seconda della cifra del codice che si desidera conoscere. Esempio: se dopo aver premuto **TV**, viene premuto **SET+1**, e il codice impostato è quello dell'esempio, ossia **154**, la spia allora, non appena rilasciato **SET+1**, lampeggerà 1 volta per indicare che la cifra delle centinaia è 1. Si tratta dunque di contare. Premere e rilasciare **SET+2** per conoscere la cifra delle decine: la spia lampeggerà in questo caso 5 volte per indicare che la cifra delle decine è 5 (154). In seguito, premere e rilasciare **SET+3** per conoscere la cifra delle unità: la spia lampeggerà in questo caso 4 volte indicando così il 4 in 154. - *Per ricordarsi il codice, si consiglia di scriverlo ad es. su una targhetta adesiva da applicare poi sul dorso del telecomando.*

#### Comando

Il comando degli apparecchi avviene in modo identico a quello già noto dei telecomandi originali. La sola differenza consiste nel dover premere prima un tasto di apparecchio, **TV**, **DVD** ecc., per poter poi comandare l'apparecchio desiderato. Dato che i simboli sul telecomando UR 89 possono essere diversi da quelli sui telecomandi originali, occorrerà eventualmente provare tutti tasti per individuare le funzioni di ciascun tasto.

#### Impostazioni e funzioni speciali

1. **Funzione "Volume Punch Through":** per semplificare l'utilizzazione, i tasti di regolazione del volume (**VOL+** e **VOL-**) ed il tasto **MUTE** agiscono sempre sull'ultimo apparecchio utilizzato per il comando audio, qualora non sia previsto alcun comando audio nel codice di comando dell'apparecchio attualmente selezionato. Esempio: si comanda dapprima **TV** e poi si passa a **DVD**, sprovvisto di comando audio. In tal caso il telecomando agirà automaticamente sull'audio del televisore, senza che si debba tornare prima su **TV**.

2. **Definizione di un apparecchio per Volume e Mute:** premere il tasto di apparecchio dell'apparecchio che si vuole utilizzare sempre per il comando audio, ad es. **AUX** qualora il proprio ricevitore AV sia collegato ad **AUX**. Per bloccare premere **SET** e **6**. Per sbloccare premere **SET** e **6**.

#### Specificazioni tecniche

Pile: 2 pile rotonde, R03, UM4, AAA  
Portata: max. 7m  
Non per apparecchi da 400 kHz

#### 2 anni di garanzia di fabbrica

Se UR 89 si guasta nei 2 anni dalla data di acquisto, Vivanco si impegna a sostituire gratuitamente il telecomando. Eccezioni:

codici mancanti, distruzione deliberata e usura naturale della scatola e dei tasti.
